

VANTEC UGT-PC130GNA

Vantec UGT-PC130GNA 4-Port PCIe Gigabit Ethernet Network Adapter Card

Product Overview

Vantec UGT-PC130GNA 4-Port PCIe Gigabit Ethernet Network Adapter Card

Specifications

About this product

The Vantec UGT-PC130GNA 4-Port PCIe Gigabit Ethernet Network Adapter Card adds four high-speed RJ-45 LAN ports to your system via a PCIe x4 interface, delivering reliable 10/100/1000Mbps connectivity with full duplex support and 9K jumbo frames. Ideal for servers, workstations, and multi-network environments requiring dedicated ports with individual MAC addresses. Buy now from our website for a scalable and efficient networking upgrade.

Overview Summary

Vantec UGT-PC130GNA 4-Port PCIe Gigabit Ethernet Adapter

This high-performance PCIe network adapter is designed to expand your system connectivity with four independent Gigabit Ethernet ports. Built on PCIe 2.0 x4 architecture, it ensures high bandwidth, reduced latency, and efficient data handling for demanding environments such as servers and advanced desktop setups.

The adapter supports auto-negotiation, full duplex communication, and advanced networking features such as jumbo frame support up to 9K and Wake on LAN. Its compatibility with major operating systems including Windows and Linux makes it a versatile solution for professionals and IT environments.

Performance tier:Mid-range

Uses:server networking, virtualization, multi LAN setups, network segmentation, workstation upgrades

Overview

This Vantec 4-Port PCIe Gigabit Ethernet Network Card is the next revolution in I/O interconnect standards that will deliver the bandwidth and features required by Systems, Servers and communications devices. The architecture is a cost-effective, low-pin count, and point-to-point technologies offering maximum bandwidth, reducing hardware count by 4 and increase performance thru the PCIe Bus using 4 Lanes. This card is the best solution for multi-Network requiring individual port with its own Mac address and also supports 9K Jumbo Frame. It comes with comprehensive software drivers for all desktop operating systems, including Microsoft Windows and Linux.

Description

The Vantec UGT-PC130GNA is engineered for users who require multiple high-speed network connections from a single system. By utilizing a PCIe x4 interface, this adapter delivers stable and efficient bandwidth across all four Gigabit Ethernet ports, ensuring consistent network performance even under heavy load.

Each RJ-45 port operates independently with its own MAC address, making it ideal for advanced networking setups such as firewalls, virtual machines, or network segmentation. The card supports automatic speed negotiation between 10Mbps, 100Mbps, and 1000Mbps, allowing seamless integration into existing infrastructure.

Designed for reliability, the adapter includes support for IEEE networking standards and features like automatic MDI MDIX crossover and full duplex operation, effectively doubling data throughput. With jumbo frame support up to 9K, it enhances data transfer efficiency in high-performance networks.

This network card is compatible with a wide range of PCIe slots including x4, x8, and x16, and works with popular operating systems such as Windows and Linux, making it a flexible upgrade for both enterprise and professional environments.

Features

The Vantec 4-port network adapter is packed with features designed to enhance connectivity and performance:

- 4 x Gigabit Ethernet ports for multiple simultaneous network connections
- PCIe 2.0 x4 interface ensures high bandwidth and low latency performance
- Supports 10/100/1000Mbps speeds with auto-negotiation
- Full duplex mode for improved data throughput
- Up to 9K jumbo frame support for efficient large data transfers

ComX Computers

Product Specification Sheet

- Independent MAC address per port for advanced network management
- Automatic MDI MDIX crossover simplifies cabling requirements
- Wake on LAN support for remote system management
- Compatible with Windows and Linux operating systems

What's in the Box

- 1 x Vantec UGT-PC130GNA 4-Port PCIe Gigabit Ethernet Card
- Driver and software support
- Installation guide

Specifications	
Product Code	VANTEC UGT-PC130GNA
Model	UGT-PC100GNA
Device Support	1000/100/10 Mbps Ethernet Network
Gigabit network Port	4 - independent RJ45 Ethernet ports with its Mac address
Bus Technology	PCI-Express x4
Dimension	132 x 70 x 20 mm
System Requirements	PCI-Express x4, x8 or x16 slots
	Microsoft Windows 7,8, 8.1, 10; Linux

FAQ

What is the Vantec UGT-PC130GNA used for?

This adapter is used to add four Gigabit Ethernet ports to a desktop or server, enabling multiple network connections for advanced setups such as virtualization or network segmentation.

Is this network card compatible with all PCIe slots?

Yes, it is designed for PCIe x4 but is also compatible with x8 and x16 slots, ensuring flexibility across different systems.

Does it support high speed data transfer?

Yes, each port supports up to 1Gbps speeds with full duplex operation and jumbo frame support for improved efficiency.

Can this be used in a server environment?

Yes, it is ideal for servers and workstations requiring multiple independent network interfaces with stable performance.

Does it work with Linux?

Yes, the adapter includes support for Linux and Windows operating systems, making it suitable for a wide range of deployments.
