It streamlines interaction with your projector, reducing menu navigation and improving overall usability. Ideal for home entertainment, presentations, and gaming setups, it provides reliable control in any environment.

Buy now or shop now to upgrade your Wanbo projector experience in South Africa with a smarter, more efficient control

solution built for modern viewing needs.

Performance tier:Mid-range smart accessory

Uses:Home cinema control, business presentations, gaming setup navigation, media playback control, projector configuration adjustment

Overview:

Wanbo Bluetooth Remote Control for Projector Systems

Take control of your viewing experience with the Wanbo Bluetooth Remote Control, designed to deliver seamless navigation and responsive performance for compatible Wanbo projectors. Combining Bluetooth and infrared technology, this remote provides stable connectivity and precise input for home entertainment, presentations, and gaming setups. It is built to simplify interaction with your projector while improving speed and convenience in everyday use.

Description:

The Wanbo Bluetooth Remote Control is a multifunctional projector accessory that enhances usability through dual IR and Bluetooth control, voice input support, and dedicated shortcut keys. It allows users to switch projection modes, adjust focus, mute audio instantly, and access commonly used functions without navigating complex menus. Designed for compatibility with multiple Wanbo projector models, it improves operational efficiency and creates a more intuitive and streamlined viewing experience.

Features:

Seamless Control for Everyday Use

This Wanbo projector remote is engineered for practical, real-world use where speed and simplicity matter. It reduces the need for manual on-device adjustments by centralizing key controls into a single handheld interface. Whether used for streaming, business displays, or gaming sessions, it ensures quick response and consistent performance across different environments.

Smart Interaction and Voice Support

Integrated voice functionality allows for hands-free interaction with supported commands, improving accessibility and convenience. Combined with Bluetooth connectivity, the remote enables fast response times while maintaining reliable pairing stability. Infrared support adds an additional layer of compatibility for broader usage scenarios.

Shortcut-Driven Navigation and Display Control

The remote includes dedicated shortcut keys designed to reduce navigation time and improve efficiency. Users can instantly access projection settings, adjust image focus, and switch display modes depending on lighting conditions or content type.

Key functions include:

- Projection mode switching for different viewing environments
- Focus adjustment shortcut for image clarity control
- Mute button for instant audio control
- Apply shortcut keys for frequently used commands

These controls help streamline operation and reduce interruptions during use.

Compatibility and Technical Capability

The Wanbo Bluetooth Remote Control is compatible with multiple projector models, ensuring broad usability across the Wanbo ecosystem.

Compatible models include:

ComX Computers

Product Specification Sheet

- Wanbo X5 Pro
- Wanbo DaVinci 1 Pro
- Wanbo Vali 1
