## Specifications

### About this product

The Logitech C270 HD Webcam delivers smooth 720p video calling with clear audio using a built-in noise-reducing microphone and RightLight technology for improved image quality in low light conditions. Buy this plug-and-play USB webcam for reliable video conferencing, online meetings, and everyday streaming from your computer in South Africa and enjoy simple setup and consistent performance.

### Overview Summary

**Logitech C270 HD Webcam**is a compact USB webcam designed for clear HD video calls and everyday communication. It supports 720p video at 30fps with software enhanced 3MP snapshots, making it suitable for personal and professional use.

The built-in microphone uses RightSound technology to reduce background noise and improve voice clarity, while RightLight technology automatically adjusts brightness and contrast for better visibility in different lighting environments.

With simple USB plug-and-play connectivity, the C270 is compatible with most major operating systems and video conferencing platforms, making it an easy upgrade for laptops and desktop setups.

**Performance tier:**Entry level

**Uses:**Video conferencing, online meetings, remote learning, live streaming, voice calls

### Overview

The C270 HD Webcam gives you sharp, smooth conference calls in a widescreen format. Automatic light correction shows you in lifelike, natural colors.

### Description

The Logitech C270 HD Webcam is a reliable entry-level USB camera designed for everyday communication needs. It delivers HD 720p video quality at 30 frames per second, ensuring smooth and stable video for calls and conferencing.

Its compact design includes a universal mounting clip that attaches easily to laptops, monitors, or flat surfaces. The integrated microphone with RightSound technology helps capture clear voice audio while reducing background noise, making conversations more natural and understandable.

RightLight technology enhances image quality by automatically adjusting lighting conditions, helping users appear clearer even in dim or uneven lighting environments.

### Features

- HD 720p video resolution for smooth and clear video calls
- Built-in microphone with RightSound noise reduction technology
- RightLight automatic lighting adjustment for better image clarity
- USB plug-and-play connectivity with no complex installation required
- Universal clip for secure mounting on laptops and monitors
- 3MP software-enhanced snapshots for still image capture
- Compatible with major video calling platforms

**Simple HD video calls**
The C270 HD Webcam gives you sharp, smooth conference calls (720p/30fps) in a widescreen format. Automatic light correction shows you in lifelike, natural colors.

**Widescreen HD 720p video calls**
Crisp HD 720p/30 fps video calls with diagonal 55degrees field of view and auto light correction. Compatible with popular platforms including SkypeTM and Zoom(RegTM).

**Mono noise-reducing mic**
The built-in noise-reducing mic makes sure your voice comes across clearly up to 1.5 meters away, even if you're in busy surroundings.

**Auto-light correction**
C270's RightLightTM 2 feature adjusts to lighting conditions, producing brighter, contrasted images to help you look good in all your conference calls.

**Firm mounting option**
The adjustable universal clip lets you attach the camera securely to your screen or laptop, or fold the clip and set the webcam on a shelf. You're always ready for your next video call.

## What's in the Box

- 1 x Logitech C270 HD Webcam
- 1 x Attached USB cable
- User documentation
