Specifications

Summary Overview:

Upgrade your productivity with the Lenovo ThinkPad X1 2-in-1 Gen 11 Aura Edition, now available in South Africa. This premium convertible laptop combines powerful Intel Core Ultra 7 performance with a sleek grey aluminium design, featuring a vibrant 14-inch touchscreen and built-in LTE connectivity for work on the go. Whether you are managing complex spreadsheets or attending secure video calls, this Copilot+ PC delivers seamless multitasking with its robust 32GB RAM and fast SSD storage.

Equip yourself with enterprise-grade security and a long-lasting battery life designed to keep you moving. Don't miss out on the chance to own one of the top-selling AI PCs in the region. Buy now from our online store to experience the perfect blend of portability and power tailored for modern professionals.

Laptop performance tier:High-End Business

Uses:Professional work, business travel, creative design, data analysis, video conferencing

Overview:

The Lenovo ThinkPad X1 2-in-1 Gen 11 Aura Edition, model number 21V9005BZA, represents the pinnacle of mobile productivity for professionals who demand versatility. This premium grey notebook tablet seamlessly blends powerful performance with a sleek design, making it an ideal companion for business travelers and creative users alike. Powered by the latest Intel Core Ultra 7 processor from the Panther Lake series, this device delivers exceptional speed and efficiency through its unique architecture of four high-performance cores and four low-power efficient cores.

The heart of this system is the Intel Core Ultra 7 355 Series 3 processor, which features eight cores capable of turbo boosting up to 4.7GHz with a substantial 12MB L3 cache. Paired with 32GB of onboard LPDDR5X memory running at 7467MHz, users experience smooth multitasking and rapid application loading times. The integrated Intel NPU provides peak performance of 49 TOPS, classifying this machine as a true AI PC ready for modern workloads. Storage is handled by a fast 1TB PCIe SSD in an M.2 2280 slot, ensuring quick access to all your files and applications.

Description

The Lenovo ThinkPad X1 2-in-1 Gen 11 Aura Edition combines premium build quality with cutting-edge technology for professionals on the go. Key benefits include a vibrant 14-inch WUXGA touchscreen with 500 nits brightness for clear visibility outdoors, built-in 4G LTE connectivity via an embedded eSIM for staying connected anywhere, and comprehensive security features like a privacy shutter and fingerprint reader. The device comes equipped with the Lenovo Slim Pen 2 for precise digital note-taking, weighs just over 1 kg for portability, and runs the full Windows 11 Pro operating system to support all your professional software needs.

Features:

Key Performance Highlights

This laptop is designed to handle demanding tasks with ease. The Intel Core Ultra Series 3 processor ensures high-speed operations while maintaining energy efficiency. Below are the essential technical specifications that define its capability:

- CPU: Intel Core Ultra 7 355 (8 cores, up to 4.7GHz)
- Memory: 32GB LPDDR5X-7467 soldered RAM
- Storage: 1TB M.2 PCIe SSD with support for up to 2TB expansion
- Graphics: Integrated Intel Graphics with AI acceleration
- Battery: 58Wh unit supporting fast charging via USB-C PD

Display and Design Features

The 14-inch capacitive multi-touch display offers a WUXGA resolution of 1920 by 1200 pixels with an IPS panel that delivers 100% sRGB color accuracy. The screen is glossy, anti-glare, and anti-smudge with a brightness level of 500 nits, ensuring readability in various lighting conditions including bright sunlight. Constructed from durable aluminium for both the top and bottom cases, this grey machine meets MIL-STD-810H military standards for reliability. It weighs approximately 1.14 kg and features a slim profile that makes it easy to carry in a briefcase or backpack.

Connectivity is robust with Wi-Fi 7 (802.11be) and Bluetooth 5.4 included as standard. A standout capability of this model is the built-in 4G LTE connection powered by a Snapdragon X12 modem, allowing for instant internet access without relying on public hotspots. The device includes an embedded eSIM with no physical SIM card required, along with a Kensington Nano Security Slot for added physical security.

Ports and Connectivity Options

The ThinkPad X1 2-in-1 Gen 11 Aura Edition provides a comprehensive array of ports to connect all your peripherals. The layout includes three Thunderbolt 4 ports that support USB Power Delivery up to 65W and DisplayPort 2.1, allowing for high-speed data transfer and connection to external monitors. Additional connectivity options include an HDMI 2.1 port supporting up to 4K resolution at 60Hz, a standard headphone and microphone combo jack, and one USB-A port that supports always-on charging.

- 3x Thunderbolt 4 with USB PD
- 1x HDMI 2.1 (up to 4K/60Hz)
- 1x USB-A (USB 5Gbps) Always On
- 1x Headphone/Microphone combo jack

Security and Software

Safety is a priority with this device, which includes ThinkShield for comprehensive protection across hardware and software. Users benefit from discrete TPM 2.0 security, a fingerprint reader located in the power button on the keyboard, and an IR camera that supports Windows Hello facial recognition. A physical privacy shutter covers the 5MP webcam when not in use to prevent unauthorized viewing. The system runs Microsoft Windows 11 Professional 64-bit, ensuring access to advanced enterprise features and compatibility with a wide range of business applications.

What's in the box

Purchase of this model includes the laptop itself, the Lenovo Slim Pen 2 for creative work and note-taking, and a 65W USB-C Slim GaN power adapter. The packaging ensures all components are securely protected during shipping. Note that no physical SIM card is included with the built-in WWAN module.

- Lenovo ThinkPad X1 2-in-1 Gen 11 Aura Edition Laptop
- Lenovo Slim Pen 2
- 65W USB-C Power Adapter

This model, identified by the part number X1 2-in1 21V9005BZA, is a top-tier choice for users requiring a powerful, secure, and highly portable computing solution. Whether used as a traditional laptop or converted into a tablet mode, it adapts to your workflow with its flexible 360-degree hinge design.

FAQ

Is the memory on this laptop upgradable?

No, the Lenovo ThinkPad X1 2-in-1 Gen 11 comes with 32GB of LPDDR5X memory soldered to the systemboard, meaning it is not upgradable after purchase.

Does this model include a SIM card for cellular connectivity?

This unit features built-in 4G LTE support via an embedded eSIM, but it does not come with a physical SIM card included in the box.

Can I use external monitors or charge my devices through this laptop's ports?

Yes, the device is equipped with three Thunderbolt 4 ports that support USB Power Delivery (15-65W) and DisplayPort 2.1, allowing you to connect up to two displays while charging compatible peripherals.

What type of storage does this notebook use and can it be expanded?

The laptop includes a 1TB PCIe M.2 2280 SSD and has one available slot that supports drives up to 2TB, allowing for future storage expansion if needed.

Is the stylus included with the purchase of this tablet-laptop hybrid?

No, while the screen is designed for use with a pen and supports touch input, the Lenovo Slim Pen 2 is not bundled with this specific model configuration.
