**Performance tier:**Premium

**Uses:**Business communication, VoIP calling, executive offices, professional workspaces, reception desks, enterprise telephony, office collaboration

### Overview:

#### Yealink SIP-T58W Pro Elite Desktop Collaboration IP Phone

The Yealink SIP-T58W Pro is a premium desktop collaboration IP phone designed for modern business communication. It combines a large adjustable 7-inch capacitive touchscreen, Android 9.0 operating system, wireless handset support, Bluetooth, Wi-Fi and advanced HD audio into a flexible communication solution for professional environments.

The T58W Pro supports up to 16 SIP accounts, making it suitable for users who need to manage multiple lines or business services from a single device. With dual Gigabit Ethernet ports, PoE support and two USB 2.0 ports, the phone also provides practical connectivity for headsets, storage and other supported applications.

**Description:**

The Yealink SIP-T58W Pro takes business communication beyond a traditional desk phone by combining touchscreen control, wireless mobility and powerful collaboration capabilities. The Bluetooth handset allows users to move away from the desk while staying connected, while Yealink Noise Proof Technology and a full-duplex hands-free speakerphone with Acoustic Echo Cancellation help maintain clear conversations in busy office environments.

Powered by Android 9.0 and upgraded processing hardware, the T58W Pro provides responsive operation and support for modern business applications. Built-in Bluetooth and Wi-Fi add installation flexibility, while the dual-port Gigabit Ethernet interface and PoE support help simplify deployment. The phone also supports up to three Yealink EXP50 expansion modules for users who require additional programmable keys.

**Features:****Wireless Communication for Greater Freedom**

The Yealink T58W Pro is designed to reduce the limitations of a conventional wired handset. Support for the Yealink BTH58 Bluetooth handset gives users greater freedom to move around the workplace while handling calls.

This makes the phone well suited to reception desks, management offices, sales environments, customer service areas and other workplaces where users may need to step away from their desk during conversations.

**Clear Business Calls with HD Audio**

Audio quality is a major part of the T58W Pro design. Yealink Noise Proof Technology helps reduce unwanted background noise, while the full-duplex speakerphone uses Acoustic Echo Cancellation to improve hands-free conversations.

The result is a more focused calling experience for meetings, customer discussions and everyday business communication.

**Android 9.0 Touchscreen Business Phone**

The 7-inch adjustable capacitive touchscreen provides an intuitive interface for accessing phone functions and supported applications. Android 9.0 also provides the platform with improved system capabilities, security management and integration potential for modern business environments.

Upgraded chipset technology provides faster system response and improved processing performance compared with previous-generation hardware.

**Flexible Connectivity for Business Networks**

The T58W Pro can connect directly to a business network through its dual Gigabit Ethernet ports and supports Power over Ethernet, helping reduce cable requirements during installation. Built-in Wi-Fi and Bluetooth provide additional connection options where wireless deployment is preferred.

Two USB 2.0 ports can be used with supported USB headsets, storage and other compatible applications, providing additional flexibility for different working environments.

Key connectivity points include:

- Built-in Wi-Fi and Bluetooth
- Dual-port Gigabit Ethernet
- PoE support
- Two USB 2.0 ports
- Support for USB headset, media and storage applications

**Support for Multiple SIP Accounts**

With support for up to 16 SIP accounts, the Yealink SIP-T58W Pro can accommodate users who need access to multiple telephone lines or VoIP services. This makes it a practical choice for busy business users, executives and

communication-focused workstations.

### Expansion Options for Busy Users

The T58W Pro can be expanded with up to three Yealink EXP50 expansion modules. This provides additional programmable keys for users who manage numerous contacts, lines, extensions or call functions.

### Security and Device Management

Security and centralised management are also important parts of the T58W Pro platform. Arm TrustZone technology helps protect ARM-based data and applications, while support for the Yealink and Unify Square Device Management Platform can simplify device provisioning, management and updates across a business environment.
