

YL-YHS36 E2 MONO

Yealink YHS36 E2 Mono Headset with RJ-9 & Noise Cancelling Microphone

Product Overview

Yealink YHS36 E2 MONO Headset with RJ-9 & Noise Cancelling Microphone & Leatherette Ear Cushions, HD voice, Wideband Speaker Performance, Noise-Canceling Microphone, Passive noise cancellation, 300 degrees bendable Boom Arm, 0.9m Headset cable length, 1.2m QD to RJ9 cable length

Specifications

Overview Summary:

The Yealink YHS36 E2 Mono Wired Headset is designed for reliable professional communication in office, SOHO, and call centre environments. It delivers consistent HD voice clarity through a wideband speaker system and a noise-cancelling microphone that reduces background interference during calls. The RJ9 QD plug-and-play connection ensures fast deployment with compatible Yealink desk phones.

Built for long-duration wear, this lightweight mono headset supports all-day comfort with soft leatherette ear cushions and a flexible 300degrees adjustable boom arm. Its durable cable structure and passive noise isolation make it suitable for high-volume communication environments where clarity and reliability are critical. Shop now to upgrade your business communication setup in South Africa.

Performance tier:Professional mid-range

Uses:office communication, call centres, customer support operations, VoIP desk phone calling, SOHO business environments

Overview:

Yealink YHS36 E2 Mono Wired Headset for Business Communication (SKU: YHS36 E2 MONO)

The Yealink YHS36 E2 Mono is a professional wired headset designed for consistent voice communication in office, SOHO, and contact centre environments. It uses a QD to RJ9 connection system for direct integration with Yealink IP desk phones, enabling immediate plug-and-play deployment without additional setup steps. Built for daily professional use, it delivers stable audio performance with a focus on clarity, comfort, and operational efficiency.

Description:

The Yealink YHS36 E2 Mono combines a noise-cancelling microphone, HD voice support, and passive noise isolation to maintain clear communication in busy work environments. Its lightweight 81 g mono design reduces fatigue during long calls, while the leatherette ear cushion improves comfort and stability. The adjustable 300-degree boom arm allows flexible positioning for optimal voice pickup, making it suitable for intensive communication tasks across service desks, call centres, and office operations.

Features:**Business Phone Integration and Plug-and-Play Setup**

This headset is engineered specifically for Yealink desk phone ecosystems, ensuring seamless compatibility through its QD (Quick Disconnect) to RJ9 interface. Once connected, it operates immediately without configuration, supporting efficient deployment across business teams.

Key deployment advantages include:

- Direct compatibility with Yealink IP desk phones
- QD to RJ9 plug-and-play connectivity
- No additional drivers or setup required
- Optimised performance when paired with supported Yealink systems

The SKU YHS36 E2 MONO is commonly used for procurement and inventory tracking in enterprise environments.

Audio Performance and Noise Control Engineering

The headset is designed to maintain clear and reliable voice transmission in high-noise environments. Its acoustic system is tuned for speech clarity and reduced interference.

Core audio capabilities include:

- Noise-cancelling microphone to suppress background noise
- Wideband HD voice support for natural speech reproduction
- 35 mm speaker drivers for balanced sound output
- Passive noise isolation to reduce external distractions

These components work together to enhance call accuracy and reduce listening fatigue during extended use.

Comfort and Ergonomic Design for Extended Use

Built for long-duration wear, the YHS36 E2 Mono prioritises physical comfort and stability. Its lightweight structure and adjustable components support continuous daily use without excessive pressure or strain.

Comfort-focused design elements include:

- 81 g mono headset construction for reduced head fatigue
- Soft leatherette ear cushion for stable fit and comfort
- 300-degree adjustable boom arm for flexible microphone positioning
- Over-the-head frame designed for secure daily wear

This makes it suitable for environments where users remain on calls for extended periods.

Technical Build and Operational Configuration

The headset is engineered for durability and consistent performance in demanding business environments. Cable design and connection structure are optimised for practical daily use.
