

ZK-SLG200

ZKTeco SLG200 Bluetooth Gateway for ML300 Smart Locks

Product Overview

ZKTeco SLG200 Bluetooth Gateway for ML300 Smart Locks. The ZKTeco ZK-SLG200 Bluetooth Gateway is an essential accessory for enhancing the capabilities of ML300 and ML200 smart locks. It enables remote access control and monitoring through Bluetooth connectivity, facilitating efficient management of access permissions. Its compact design and easy installation process make it a valuable addition to any security system.

Specifications

Overview Summary

The ZKTeco ZK-SLG200 Bluetooth Gateway (Model ZKSL00072) is an advanced access control solution designed to enhance the functionality of ZKTeco ML300 and ML200 smart locks. This compact device enables seamless communication between smart locks and mobile devices via Bluetooth, facilitating remote management and monitoring of access points.

Performance tier:Enterprise-grade security

Uses:Remote access control, smart lock management, mobile access, security system integration

Overview

The ZKTeco SLG200 is an advanced Bluetooth gateway that enhances the functionality of ZKTeco smart locks by allowing users to remotely control and manage their locks through a secure home network. The SLG200 gateway is compatible with ZKTeco's ML200, ML300, AL30, and AL40 smart locks, providing a seamless connection to your existing security infrastructure. It supports up to 128 nodes, making it suitable for both residential and commercial environments that require robust access control management.

The SLG200 is equipped with advanced security features, including AES-128 encryption, ensuring secure communication between the gateway and the smart locks. It integrates easily with Amazon Alexa and Google Assistant, allowing for voice control of the connected smart locks. This gateway provides wireless connectivity using 802.11b/g/n Wi-Fi and Bluetooth 5.0/4.2, ensuring reliable communication between devices. With a compact design that weighs just 34g and easy setup through a Micro-USB power interface, the SLG200 is an essential addition to any smart home or office security setup, enhancing convenience and control over your access points.

Description

The ZKTeco ZK-SLG200 Bluetooth Gateway is a pivotal component in modern access control systems. Designed to work seamlessly with ML300 and ML200 smart locks, it allows for remote management via Bluetooth connectivity. This device is ideal for applications requiring centralized control over multiple access points, such as office buildings, residential complexes, and commercial establishments.

Its compact design ensures easy installation without the need for extensive wiring, making it a cost-effective solution for upgrading existing security systems. The gateway's ability to connect up to 10 locks within a 10-15 meter range provides flexibility in deployment, catering to various spatial configurations.

Features

- Wireless Connectivity - Supports 802.11b/g/n Wi-Fi and Bluetooth 5.0/4.2 for reliable communication between smart locks and the network.
- Universal Compatibility - Works seamlessly with ZKTeco ML200, ML300, AL30, and AL40 smart locks.
- Enhanced Security - Features AES-128 encryption to ensure secure communication between the gateway and smart locks.
- High Capacity - Manages up to 128 nodes, suitable for residential and commercial applications.
- Voice Control - Integrates with Amazon Alexa and Google Assistant for hands-free operation and convenience.
- Energy Efficient - Powered via a Micro-USB port with low working current, making it energy-efficient for continuous operation.

Applications

The ZKTeco SLG200 is ideal for enhancing smart lock functionality in homes, offices, and commercial settings. It allows users to manage and control smart locks remotely, making it an essential device for anyone looking to improve their security system's flexibility and convenience.

Why Choose the ZKTeco SLG200?

The ZKTeco SLG200 Bluetooth gateway offers seamless integration with ZKTeco smart locks, enabling remote management and enhanced security with AES-128 encryption. It is compatible with popular voice assistants like Amazon Alexa and Google Assistant, providing convenience and ease of use. Whether you are looking to manage access in a residential or commercial setting, the SLG200 provides the connectivity and security features needed for modern smart lock systems.

What's in the Box

- ZKTeco ZK-SLG200 Bluetooth Gateway
- USB Type-C Power Cable
- Mounting Bracket
- Quick Start Guide

Specifications	
Product Code	ZK-SLG200
Supported Products	ML200, ML300, AL30, AL40
Maximum Nodes	128
Communication Protocols	802.11b/g/n 2.4GHz Wi-Fi; 2.4GHz BLE 5.0 / BLE 4.2
Encryption	AES-128
Power Interface	Micro-USB Port
Adapter Input	AC 100-240V, 50/60Hz

ComX Computers

Product Specification Sheet

Adapter Output	DC 5V, 1A
Working Current	
Dimensions	60.5 x 60.5 x 16.1 mm
Net Weight	34g
Operating Temperature	-10degreesC to 55degreesC
Operating Humidity	10% to 90% RH (non-condensing)
Certifications	CE-RED, FCC ID, RoHS
